Size U.S. K/10½ [6.5 mm] crochet hook or sizes needed to obtain gauge.

Yarn sewing needle.

The quantities of yarn stated are based upon average requirements and are therefore approximate.

It is important to work to the correct tension.

If there are less stitches and rows to 10cm, 4in, than the number stated, change to a finer hook, if there are more stitches and rows than stated change to a larger hook.

Owing to photography and printing restrictions, the colour reproduction is matched as closely as possible to the yarn.

TENSION

21 sts (7 reps) and 12 rows (6 reps) = 8" [20.5 cm] in patT.

If your tension is too tight use a larger hook, if too loose use a smaller hook
