**Tips on Intarsia**

When changing colour, twist the first colour and the back colour at the back of the work before working the stitch to ensure there isn't a hole in the work.

Don't carry a colour across the back of the work for more than 4 or 5 stitches as this can affect the tension. Instead, wind a bobbin of each colour you are using for each section to keep the work neat at the back.

Work from the bottom of the chart, working each knit row from right to left and each purl row from left to right. Mark off rows that you have worked on to keep track of where you are up to.
