To make up

Sew the window on to the front of the rocket, positioning in the upper half of the MC section as shown in the photo. Lightly stuff the fins and attach to the lower CC1 section spacing evenly around.

For the rocket jets and flames, cut lengths of yarn approx. 20-25cm in length; 18 in CC3, 24 in CC4, and 30 in CC5. Split these lengths in to 3 groups for each of the rocket jets. Fold a strand of yarn in half and attach it to the castoff edge of the jet, so strands hang with equal lengths. Repeat this with each strand.

Once all strands have been attached to the jet edge push this edge up inside so this edge meets with the cast on edge and the yarn strands hang through the jet and look like flames. Trim the strands to neaten. Attach the three jets to the base of the rocket.
