CYGNET

CY1775

YETI

Furry Cowl

This pattern is perfect for beginners and people using Faux fur yarn for the first time.

Skill Level: Beginner.

This pattern is written using U.S. terminology.

MEASUREMENTS

Finished Size: 2in long and 10in wide.

MATERIALS

10mm crochet hook

2 x 100g balls of Cygnet Yarns Yeti shade Rockies 2087

ABBREVIATIONS

CH – Chain

ST – Stitch

SL ST – Slip Stitch

SC – Single Crochet

F/O- Finish off

TENSION

Gauge isn't important as long as the same tension is maintained throughout.

Adjusting the size of your cowl. The Width:- To make the cowl wider (taller when worn), add more chains to your starting chain. Or use less chains to make it narrower (shorter when worn). The Length:- To make the length of the cowl longer add more rows until you are happy with it.

TIPS

With faux fur yarn it is difficult to see your stitches so I recommend:

- Count each stitch as you work.

Feel your stitches and you will know where to place your hook.

PATTERN

We are going to be working with two balls of yarn at the same time, so by holding two strands together, CH 21. 1: SC in the 2nd CH from the hook and in each ST across. CH 1 and turn. (20) 2 – 52: SC in each ST across. CH 1 and turn. (20) After working to 52 rows, you should have what looks like a large furry rectangle! This is a good point to wrap it around yourself to see if you would like to add length, make it shorter or to see if it's just right!

F/O leaving a long tail to sew the two ends together. Weave in the ends and pop it on! Oh so cosy!
